

MLT Inverters is looking forward to our new partnership with Living Solar. We are confident that this company shares the same level of excellence and integrity in delivering world class renewable systems to clients.

We have identified Living Solar as a discerning expert in the field of battery based inverter systems with a unique knowledge of optimised hybrid and off-grid systems. We see them as a key partner in the challenge of overcoming the tarnished image of battery based systems due to many undiscerning overnight players in the market.

To whom it may concern:

Living Solar (PTY) LTD
+27 87 802 3693
info@livingsolar.co.za
62 Kamp Street, Oudtshoorn
